

### **Life on Earth 1: Abundance**

**These optional questions are designed to help you relate this Scriptural Reasoning session to issues in the modern world, particularly those relating to science and technology.**

Discussion starters:

How do these texts make sense in a world dominated by science and technology?

Does the idea of God as the one who provides what we need fit with modern knowledge about ecological systems and agricultural practices?

In what ways does believing in God affect your relationship to the physical world?
